## Recurrence limitations

Posted by Onweerwolf - 2012/10/17 18:21

---

I have need for events that recur yearly on a specific day (not date) of a specific month. For instance, each year on the third Thursday in July.

It seems there is no easy way to set these events. What I could do is make a monthly event for such a thing and then make an exception for all the dates from the other 11 eleven months but that is quite a hassle.

Am i missing something obvious or is this just not part of the functionality yet. Will it be?

Welcome to the forum, Onweerwolf.

Maybe you can setting as:
