## How to remove text in brackets?

Posted by Cumbuch - 2012/10/19 05:09

---

In my Task Window I have a Date, Time, Category Icon, the Task itself, and Place followed by square brackets where there is "Exactly" with the task Date again. I need to remove the square brackets with all the text inside but I do not know how.

Is there any solution, please?

The square brackets show the name of the calendar. You can remove it from Options->Advanced->"Show task calendar".

I unchecked the "Show task calendar" but nothing changed, the text "" in square brackets still remains there.

Not really understand your issue.

Can you posted the screenshot of the task-edit-dialog which include this issue? and/or task-list?

And, what are you using skin/calendar? Shadow4? Default?

The Task screenshot is here

<https://picasaweb.google.com/cmanana/DropBox#5801130276512851106>

I use Rainlendar Calendar and Reminderfox, the skin is Shadow4\_CZ.

I think you are use Czech language. Although I'm not know Czech language, but your issue is: it's show the due time. You can remove it from Options->Advanced->unchecked "Show task due time" (Zobrazit as k úkolu).

Anoob, Great!!

Now it's O.K. Thank you very much!
