
Problem with showing only %last week in events.

Posted by ren7o - 2012/10/22 05:31

Hello,
anybody know how to fix that?
It is showing only with downloaded languages.
With default languages which comes with rainlendar it is ok!
I am using beta 125.

<http://www.rainlendar.net/cms/images/fbfiles/images/rnldr.jpg> Thank You!

Welcome to the forum, ren7o.
Which language are you using? Maybe it's outdated and Rainlendar2 can't find the correct localization.

Hi,
I am using downloaded Czech language.
Everything is translated correctly only missing a day before last week as I said.
Thank You.

It's working fine for me.
Is the right date format in the options for the event list? ("%HS %HE" or "%HF")

Hello,
If i put %HS in event list header format it is showing days as should but missing "Last Week" in past events. Please try it with Tangoish skin with czech language if You can. It will really help me.
Thank You! <http://www.rainlendar.net/cms/images/fbfiles/images/rnd.gif>

ren7o, it is maybe you downloaded a old translation file.
In old translation file, there is wrong translation string.
Suggest you re-download and try the newest translation file, which was uploaded on 2012-07-29, from here:
http://www.rainlendar.net/cms/index.php?option=com_rny_localization&Itemid=34

I still think that is the case. Maybe the language file is not installed correctly, Please re-try again.
Or, check whether your file is up to date:
Find cs_CZ folder.
Open the rainlendar2.po file (with text editor).
Compare its contents, it should same with the image I attached.

Wow, thank You anoob!
You are absolutely right! It was my fault! The language file was old!
Sorry, I am working on 3 computers. Total chaos :)
Thank You again!
