
Shadow4, clock with day and date?

Posted by Lauraq - 2012/11/02 18:29

Hi :)

I love Shadow4 skin but don't like your clock. There is a way for add day and date (in my language, italian), for example

23:58

Sabato 3 Novembre

Thank's :)

You can enable the date in the clock from Windows->DigiClock->Settings. It cannot show text though since the date is shown with bitmap images.

:(do you know a skin that can do what I want?

Thank's
