
is rain able to set individual reminders?

Posted by needsoftware - 2012/11/26 18:06

1) is rain able to set individual reminders?

rememberthemilk seem to be set reminders globally to all tasks, "If the task has a due time, remind me..."

you can either

"At the time the task is due"

"X mins before the task is due"

2) how do you import rtm tasks to rain?

Re: is rain able to set individual reminders?

1. Yes.

2. You can export the tasks in icalendar format and import the file to Rainlendar. Rainlendar Pro can also read the tasks directly from RTM.
