
Line break in ToDo cause sync error to Toodledo

Posted by dmc_universe - 2012/12/20 15:56

If write like this, all is ok :

<http://ivisa.org/images/toodledo-ok.png>

But if write like this, enter a line break in description :

<http://ivisa.org/images/toodledo-newline.png>

Toodledo would get a sync error :

<http://ivisa.org/images/toodledo-error.png>

.
.
.

Any way to fix ?

Try the latest beta version. If I remember correctly this problem was fixed a while ago in it.

That's true! Rainlendar 2.11 BETA build 127 works fine on it, thanks!
