
How do I modify the alam popup?

Posted by Kea - 2013/01/10 03:13

Hi;

1. The alarm popup window is very small (for my tastes). Is there any way to make it bigger?
2. Is there any way to move the location of the popup window?

1. Options > Skins > Advanced > (Active skins)Shadow4 - Alarm > Settings > Scale
2. Just drag it to where you want.
