
Event descriptions in window instead of tooltip

Posted by jfinner1 - 2013/01/13 23:42

Hello! I'm new, and a bit clueless, and I'm just wondering if it's possible to place the event descriptions in the Event window, instead of in the Tooltips popup. If it's possible, how would I go about doing it? Thanks in advance.

The event list is not able to show the descriptions but just the summary of the event.
