## Disable drag n drop in week view?

Posted by Netman - 2013/01/20 14:27

---

In week view, you can move events simply by drag n drop.  
How can I disable this feature?

When I try opening an event by double-clicking on it, I always end up in accidentally moving it. :(

Right click -> Options -> Advanced -> Schedule -> uncheck "Create, move and resize events with mouse"

Thanks.  
That solved the problem. :)
