## When I open Option, Error message pop up.

Posted by brianoh68 - 2013/02/12 15:56

---

When I open Option, Error message pop up like attached file.

I use rainlendar Pro 2.1.1

Note Book Model: sony viao z46

Operating System. Windows 8 pro

Please Let me know What must be done. Thank you.

The problem is in the translation which probably has duplicate strings. The error is not fatal so you can just ignore it.
