
Unable to add recurrence exceptions for tasks

Posted by rusty3019 - 2013/03/03 10:01

Hey fellas,

I'm trying to create a recurring weekly quiz for my task list. Everything is working smoothly, including the "recurrence until _____" function, but I'm unable to add an exception for the one week in mid-march where my school lets out for spring break. As you can see in the screenshot, the box where I can select days to add to the list of exception dates been greyed out for some reason.

Anyone know what's up?

Cheers,

Riley http://www.rainlendar.net/cms/images/fbfiles/images/rainlendar_error-246233207b199e5d8a906df0b27c045d.png

I guess, maybe is because that Remember The Milk not support to set exception dates, so author disable it. But I'm not sure.
