
Receiving Rainlendar Event Notifications

Posted by rainlenderlover - 2013/03/03 23:01

Can any version of Rainlendar (Free or PRO) send event notifications to my cell phone?

Rainlendar cannot do that directly, but maybe can done through Google Calendar, just like Rainy said on another posted:
http://www.rainlendar.net/cms/index.php?option=com_kunena&Itemid=42&func=view&catid=3&id=18884#18890

That is, use Rainlendar Pro to add a calendar that linking to Google Calendar. Then go to Google Calendar Web select the alarm way what you want.
