
To Do's off by One day using Remember the Milk.

Posted by ZHammer - 2013/03/12 11:25

Hello, I'm not sure what the issue is that I am having or how to fix it, but my To-Do's are syncing from Remember the Milk and are 1 day behind. If the To-Do in RTM is Monday, Rainlendar is setting it as Sunday, Tuesday is Monday, etc...

Any ideas how to fix this?

Verify that the timezone is set the same in RTM website and in your computer.
