## Changing the order of events/colors?

Posted by matrixclown - 2013/04/04 15:48

---

Hey,

I'm thinking this might be a simple question, but I've dug through the forum and wikis and can't find the answer.

I frequently have days with 3-4 events planned, all in different colors. Some colors have a higher priority to me than others. Magenta for example is generally a major event. I want to know how I can make the day 'be' a magenta day instead of a color of less importance to me, like grey. Right now the day's are colored based on the last event I put in. Is there a way to specify order of significance or manually change the day color?

Thanks so much!

Matrixclown

Welcome to the forum, Matrixclown.

You can set the priority for categories with right click -> options... -> skins -> categories... -> add... or edit -> change the day color in the lower side of the dialog and set the priority (the last option) to a bigger value.
