# Change the task background in week view?

Posted by Sphener - 2013/05/01 01:15

_____

Cant find a way to do it. Pic Attached. What I want to do is the task thing should not be white and opaque, but transparent.
Thanks for the help.

Welcome to the forum, Sphener.

The only way to do that is to edit manually the skin file. There's no option way.

If you want to edit the skin file: search for shadow4.r2skin file, open it with a zip manager, and open the file /xml/elements.xml.
Change all lines  to . Change the opacity as you wish. Save, and rezip. Finally, refresh Rainlendar2.

Thanks a lot!
I didn't know that there were different colours; how can I switch between different colours(For the task thing)?

"Categories" decide the background color and text color, so you can try to specify category for task thing.
