_____

RL 2.11.1 b129
Win7 Enterprise 32 bit

The date circled says 8 May but in the tray icon says 7. I have a screenshot attached, please tell me what other information you need... http://www.rainlendar.net/cms/images/fbfiles/images/2013_05_08_RL_bug_02a.png

I have not yet tried to restart RL for fear of losing the bug. Please advise next step.
