
Week Start with Sunday?

Posted by Pyros9 - 2006/11/01 02:22

Is there any way to make the weeks start with Sunday? Right now the default with RL is for the weeks to start on Monday, but on most calendars the week starts on Sunday (at least where I'm from) :)

Thanks....

Go to Options>General>week's start day : and then choose your day...

Oh for pete's sake. Here I am checking .ini files and advanced options and it was right there in the general options. Thank you very much.

Doug
