## rss viewer widget / missing resources

Posted by wri50g - 2013/05/28 06:22

Dear Support,

I'm using your Shadow4-Widgets (v1.10 -> <http://www.rainlendar.net/download/Shadow4-Widgets.r2skin-addon>) to display an rss feed, but i suspect that i'm missing some images.

inspecting the log and rss.xml/widget-elements.xml, the following elements seem to be affected:

bitmap.background.tile.full  
bitmap.background.bottom  
bitmap.scroll.bar  
bitmap.scroll.thumb

Could you please take a look and tell me your oppinion?

Thank you,

wri50g

The images that you listed are in the original skin. If you see some errors related to them the addon was probably not installed properly. Try deleting the combined skin from the Rainlendar's data folder and reinstall the addon.
