## Alarms add Todo item

Posted by Realities - 2007/01/26 11:19

---

Hello all,

I've tried to see if Rainlendar was doing this, but I couldn't find anything about it.

Is there a way (I have a very old version of Rainlendar), to set an alarm that will, when its triggered, pop up the warning and also add the text to the TODO list ? I'm asking because its rare that I do my alarm task right away and often forget it when snoozed once.

Rainlendar rocks !

Regards,

M-A
