
Event List Date instead of Day of week?

Posted by viper493 - 2013/09/30 12:57

Hello,
I have searched the form and don't see anything about this.

In the event list your showing day of week like Monday, Tuesday ... ect.

Is it possible to show the actual date the event is due instead of the week day?

Thanks
Viper

Welcome to the forum, Viper.

If I understand you right, you want to change the date format in the Event List?

To change this, you need to do:

- Right click on a window
- Options...
- Advanced
- Event List
- Date format header

- set here the format you want. You can found the possible values in Help -> User Guide -> Date Format. E.g.:

mm/dd: %m/%d (09/30)

weekday, dd month year: %A, %d %B %Y (Monday, 30 September 2013)

Awesome that is exactly what I was after.

Thank You

Viper
