
Monthly View: Some entries are unreadable dark

Posted by Sagehorn - 2013/12/05 13:45

Hey

Today I tried the monthly view (or whatever it's called) and found out, that some of the entries are so grey/dark, that they are unreadable, while others are in normal white.. Any idea why?

The appearance is defined by the event's category so check how that is set.
