
How can I make my calendar larger?

Posted by Neilyum2 - 2013/12/18 14:27

Hi folks!

Can anyone please guide me on how to make my calendar larger?

It works great and I'm not having any problems, but it's just a little harder to read the events as my eyes age. I've experimented a little, but not getting any results.

Any advice/suggestions would be greatly appreciated!

Thanks in advance!

Neil :-D
