
Error message

Posted by jamuschette - 2014/01/07 09:54

I receive this message when trying to dismiss an event:

Server returned result: (65) 302 Sending the data requires a rewind that failed.
Moved Temporarily The document has moved here.

How can I fix this?

How do I upgrade? Is there a link for me to go to or somewhere on this website?
