
Remove calendar name?

Posted by Aula28 - 2014/01/07 21:52

For some reason I'm getting the name of the calendar (I think that's what it is) listed in brackets in the Event Window.
e.g. "Dad's Birthday (66) "

I've tried searching the forums but I'm not sure what I'm looking for. How can I turn this off? I only have one calendar so I don't need to be reminded which one I'm using. <http://www.rainlendar.net/cms/images/fbfiles/images/Rainlender.PNG>
