## how delete \"due...\" in todo-list

Posted by Spider - 2014/01/14 04:07

---

I want to delete the second part of a task,

for example this task:

Call Roger

Maybe it is not the exact term in english. I'm using German. So the example in german is:

Roger anrufen

How can I configure that? It would also be fine just to delete the words "Fällig am" except the date. The date could remain there, like:

Roger anrufen

Thank You for Your answer.

You can remove the whole due date from Options->Advanced->"Show task due time". Unfortunately it's not possible to hide just the text part except by changing the translation (here's the info how to do that: [http://rainlendar.net/cms/index.php?option=com\\_rny\\_translate](http://rainlendar.net/cms/index.php?option=com_rny_translate)).

Thank You! This solution helps me - to change it in >Options >Advanced >"Show task due time".
