
New error message

Posted by Beat - 2014/01/24 16:14

after using Rainlendar for several weeks I got the attached error message for the first time. Can somebody explain it to me?

Thank you! http://www.rainlendar.net/cms/images/fbfiles/images/Large_Error_Message.jpg

The error comes from the Google's server. There seems to be some internal error which probably goes away after a while.
