
Remove [default] from events in Calendar display

Posted by siegbrunn - 2014/03/06 12:30

I'm using Chromophore large calendar and after every event or appointment entry is . I would like to eliminate this, it's starting to irritate me, but I only use ONE calendar and I don't know how I could do this. Is it possible? Is there a setting or something for it?

I appreciate any help. Thanks

on Rainlendar lite 2.12.1

Win7 Pro

THANK YOU!!! Thank you! With so many options available for Rainlendar, sometimes I get a bit lost, but I know I can count on you to help.

Thank you!
