## alarm won't be shown

Posted by jan.crochet - 2014/05/04 13:22

---

Just installed 2.12. Defined a new event and set an alarm, got message "alarm won't be shown since skin doesn't have alarm window". The calendar does NOT have ignore alarms checked. (see attached)What skin is this talking about?  
[http://www.rainlendar.net/cms/images/fbfiles/files/rainlendare\\_alarm\\_will\\_not\\_be\\_shown.zip](http://www.rainlendar.net/cms/images/fbfiles/files/rainlendare_alarm_will_not_be_shown.zip)

The skin that you are using does not include a alarm window. You can check this in Options->Skins. Click the "Advanced >>>" button and check that there is a window under the "Alarm" item in the active skin list. If it's missing you can add it from some other skin if the one you use does not have one.
