## TOOLTIP PROBLEM

---

Hello,

I have an horizontal skin in the program and when I write "WeekdaysEnable=1" the tooltip doesn't appears.

If I disable the WeekdaysEnable (=0) the tooltip appears... I don't know what to do because the program don't report any error with this skin.

I have this configuration to the Days and Weekdays:

```
DaysEnable      =1
DaysX           =60
DaysY           =12
DaysW           =1340
DaysH           =40
DaysAlign       =2
DaysNumOfComponents =32
DaysRasterizer  =FONT
DaysFont        =-10/0/0/0/700/0/0/0/0/3/2/1/34/Arial
DaysFontColor   =FFFFFF
DaysWeekendFontColor=6699CC
DaysIgnoreToday =0
DaysIgnoreEvent =0
DaysSeparation  =0
DaysLayout      =1
DaysBitmapName  =
DaysWeekendBitmapName=
```

```
WeekdaysEnable =1
WeekdaysBitmapName =
WeekdaysAlign  =34
WeekdaysRasterizer =FONT
WeekdaysFontColor =777777
WeekdaysFont    =-10/0/0/0/400/0/0/0/0/3/2/1/34/Arial
WeekdayNames     =DOM/LUN/MAR/MIE/JUE/VIE/SAB
```

Thanks a lot and very good work!!! The program is very useful.

There is an offset bug in the horizontal and vertical calendars. It will be fixed in the next version.
