Sorry if this is the wrong place to ask but it seems the right place...

I've not been getting any emails to tell me there's been a new post in the topics I'm subscribed to for quite a while. I used to get them in the past.

Is there anything I need to do?

I haven't used the feature myself but I wouldn't be surprised if it didn't work. The email system in the server hasn't been very reliable. Has anyone else had any problems with it?
