
Removing Due Date on To Do List

Posted by mdonders - 2007/02/12 20:26

I love the to do list on rainlendar except for the fact that I cannot figure how to get rid of the . I searched the forums and found the solution of editing the language file, but I cannot seem to find it.

Any ideas or know how to get rid of that date. I sort by date and maybe if I could change it to the time that would be a lot better.

Try: Options->Advanced->ToDoListShowDueTime
