## View To-Do Item from OL2007

Posted by FlyingHorse - 2007/02/27 18:33

---

Connecting to Outlook 2007 I cannot view to-do tasks in the To-Do window of Rainlendar, only normal tasks. Is there a plan to include OL2007's new To-Do items?

I don't have Outlook 2007. What's the difference between to-do tasks and normal tasks?

Basically, a to-do item is a reminder flag for an e-mail message. By flagging the message an entry is entered into the task list as well as your To-Do bar.

You can find more information at Microsoft.

Also, you can always download the time limited demo version from MS as well.

HTH

Ok, I'll take a look at it when I have some free time.
