## ToDo attaching to a google calendar?

Posted by thjwong - 2007/02/27 19:47

---

Hi Rainy,

I cannot create any Todo to online network google calendar, can add to local calendar only  
By the way, is there any Google Todo list except this unofficial one?

<http://www.lifehack.org/articles/lifehack/google-calendar-greasemonkey-todo-list-addon.html>

Regards,

John

You'll probably have to wait until Google Calendar starts to support todo list natively. I don't think these 3rd party addons can be used with Rainlendar.
