
tranquil skin

Posted by daven - 2007/03/01 19:35

Hi Folks,

Not sure if I should be posting skin questions in this topic, but I couldn't find a better place.

Has the tranquil skin (from Rainlendar 0.22.1) ever been ported to Rainlendar2 r2skins format? Are there any plans on doing so?

If not, maybe I'll give it a shot as personally I prefer it over the Shadow skin (but obviously I'm in the minority here :-).

Cheers,
Dave.

The Tranquil skin hasn't been ported and I don't have any plans to do that, so if you want to convert it to the r2skin format, please go ahead.
