
Simplified Chinese language localization issue

Posted by rainlendar fans - 2007/07/27 05:48

I want to translate the rainlendar2 help documents
How do I obtain the help documents the source document?

By the way

My English is very bad,maybe the grammar have an error,do not mind.:whistle:

please send E-mail to me
my E-mail:duck149@Gmail.com

The help file is just a zip archive so rename the Rainlendar2.htb to Rainlendar2.zip and uncompress it. The help content are standard html files.
