## Can I add a new category

Posted by Supering - 2006/11/05 11:56

---

Is it possible to add a new category?

I tried to add a new category by adding a line in the elements.xml file (copied from another one with another id) but it is not visible in the category list when I add a new ToDo event

I'm trying to do the same, but i haven't been very succesfull so far... For more info read my topic:  
Editing event categorie symbols/ colours

Good luck, and if u discover something, please let me know ;) !!
