
group events list

Posted by bebop - 2007/08/06 18:19

hello,

I wondered if it was possible to group events in events list ? When I have a long event, on many days, it takes 6 lines in the events list, I wish it was possible to have just one line, and the mention "X days" or "all the week" ...

Thanks for rainlendar, I don't know how I could live without before ...
