
How to make TODO show 1week list?

Posted by Eman - 2006/11/06 00:03

Ok, I've been trying to figure this out as I'm sure it is easily done but I'm having no luck.

All I'm trying to do is set it so that the todo lists items for the next 7 days rather than just today. I see where I can do this for events but it doesn't appear to be done the same for "todo".

Can someone help me out.

Thanks
E

I'm pretty sure it's not possible.
