
Newbie Help Please

Posted by Matt_UK - 2006/11/06 11:53

Howdy guys :)

Just came across this amazing app and I am really excited about it.

I just got 1 question please for anyone that can help, which are as follows :

1) The sample image on the main web site : <http://www.rainlendar.net/cms/index.php> shows the 'To Do' section showing 'Business, Gifts and Home' as a main header, and the other 'to-do' items below in sync, can someone please tell me how to get the headers for the to items ?

Many thanks guys, I hope someone can help.

Cheers.

Matt :)

Give categories to your todo items, then right click the todo list and select arrange by category.

Hiya mate :)

Thanks for the tip, works a treat :D

Cheers,

Matt B)
