
Start time should suggest setting right end time

Posted by mad - 2006/11/06 12:56

Say I modify Start Time so that it is after End Time (for now at least it is impossible physics say). To avoid surprising behavior it would be desirable to pop-up a dialog "Would you like to adjust the end time automatically". I think keeping the 'duration' intact would be a good starting point. If the answer is no, let the user cope with his stupidity ;)

I like that idea because then the old duration time could be used again.

Anyways, I second that suggestion - it's bothered me before.

Outlook seems to keep the duration if the start time is changed. That might be a good way to do it.
