
Rainmeter question...

Posted by Mirage - 2007/10/17 03:14

I haven't been able to find a support page for Rainmeter, and from what I've read here there isn't one. So I'm hoping someone out there will be kind enough to help me out here.

I'm trying to figure out how to display various voltages in Rainmeter. I have MBM5 installed (been using it for years), but every time I try scripting to display the results of Measure=Voltage, I get an error. Can someone explain how to use this feature, or at least point me to a skin that uses the voltage feature so I can see how they did it?

Thanks a lot, in advance.
