Tooltip blocks showing menu from tray

Posted by Gomo - 2006/11/08 15:03

When I try to open the menu from tray by right-clicking, when the tooltip shows up (ie. showing that today there are no events) - in that moment right click doesn't work - I have to wait for the tooltip to fade out

The tooltip should let the right mouse clicks through. I'll see why it doesn't work in the tray.
