
Import from K800i

Posted by sharkman - 2006/11/09 16:05

Can I import the calender directly from my phone , or could someone please explain the process to do so ..

Many thanks ..

You're in luck. Check this piece of software: <http://www.fjsoft.at/en/>

This is MyPhoneExplorer. For SonyEricsson phones it is a phone manager, and full featured PIM. Nifty thing is that it stores its data in standard file formats: VCF, ICS, and so on. As of this version, you don't even care. It has a feature to sync with Rainlendar. Works great! Highly recommended.
