
Red Ring of Death.

Posted by Categorized - 2008/01/13 13:13

Hey admin.

Could you please add an option on the Shadow4 skin that let's you change colour on the 'ring' that shows wich date it is? I'm not so positive about that red one, it kind of ruins for my other skincolors.

Thanks,

=====

This is reasonably easy to do yourself if you follow the procedure for editing the skin (see documentation on this site and in help file).

All you need to do is to unzip the .r2skin file, open the file (I think it is called today), change the colour from red to whatever.

Actually, the first thing I did when I first got Rainlendar, was changing that image from a red circle to a red square. So I suppose the red ring is a wonderful incentive for people to learn about the skin.

ok
