
Tutorial

Posted by phool - 2008/01/14 17:54

Can anyone point me in the direction of an easy to read, easy to follow tutorial?

Maybe even a pre-made skin that will talk me through making a skin, and then change things as and when.

I have never customized a skin before, and i don't really know what I'm doing.

What about User Guide (right click skin > Help)?

I have an old post that covers modifying the Shadow skin.
How to Skin Rainlendar 2
