
Hotkey for \"Show Manager\"

Posted by PoojanWagh - 2008/02/15 09:28

I'd like to make a hotkey to show the todo/events manager. What lua function can I call (in Hotkey_manager.lua) to show the manager?

Try this:

```
function Hotkey_Show_Manager()  
  Rainlendar_OpenDialog("Manager")  
end
```

Excellent. Works like a charm.
