
New Skin

Posted by Tweak_BL - 2008/04/04 00:44

Inspired by Chomophore, Thank you to Rainy.

I made up a really Black skin.

The screenshot does not look at all good.

I think maybe it is the .png format I used.

The screenshot does not look bad at customize.org.

Well the thumbnail of it does.:huh:If you view it from the "Also by this Artist" column.

I'll use .jpg format from now on.
