
Manager is confused.

Posted by tsuJaeltilsane - 2006/11/11 22:23

The Manager portion of Rainlendar2 displays the opposite priority for to-do items than the rest of the program, so if you choose low priority when making the item it will be displayed as high in the Manager's list and high shows low.

Yes, it's a known bug. It's fixed in build 26.
