
Rainmeter Window Class/Title

Posted by Legace - 2008/06/09 05:03

I have no idea on how to get the Window Class and Title of Rainmeter 0.14.
Can anyone help?

Thanks.

The windows don't have a title but the class name is "RainmeterMeterWindow".

Thanks. This will help :)
By the way, do you intend to update Rainmeter?

Oletko Rainy muuten Kimmo?

Currently Rainlendar takes all my free time so I wouldn't expect Rainmeter to get updated any time soon.

Juu, olen :-)
