Hi! Thanks for a superb tool.  
I just bought a new laptop and also downloade the "pro-package"  
I am an "analog" guy and I can't understand how to do for getting Rainlendar synk with outlook.  
Can you tell me in an easy language...  
Where to clickand so on..? Thanks in advange/Gunnar

Go to Options->Calendars. Click "Add...". Select "Microsoft Outlook" as the type and click through the rest of the wizard.

HI HI!!!  
Thanks a lot! Simple as that :)  
/Gunnar:)
